## EXPERIENCE

### SĀSH Media House

EDITOR, COLORIST, MOTION GFX, VFX / REDDING CA  
June 2017 - Current

- Founded video production company aimed at developing businesses through multimedia content creation. Includes editing, coloring, animating graphics, visual effects and shooting. Grew business 75% in 2018 via organic referrals.
- Clients included Adobe (8-part tutorial series on Lightroom) and Fossil (web product placement videos for bags and watches).
- Single-handedly led visual effects compositing (motion tracking, rotoscoping, green-screen replacement on iPhones) for \$1M feature film debuting April 2019; 'Bright Ones'.
- Assistant edited 6 videos for game development company with 5.2M monthly active users (KIXEYE: 'War Commander')
- Lead content creator on 100+ e-course videos (audience of 500K+) covering personal development, self-help, and relationship genres.
  - Clients included thought leaders and authors with 100K, 330K, 350K, and 500K+ social media followers.
  - Content cutting, multi-camera editing, color grading, motion designing, and sound mixing.
- Editor, colorist for 15-second TV ad spot of regional pizza chain.
- Motion designer of three 60 second animated seasonal TV ads for premier public event space in city of 100K.

### Bethel Media Group

VIDEO EDITOR, COLORIST & MOTION DESIGNER / REDDING CA  
March 2015 - May 2017 (26 months)

- For globally recognized, \$8M, 80-employee full-service production company—edited, designed, and created multimedia content with weekly reach of 200K+.
  - Collaborated with cross-functional team of up to 20 (graphic designers, directors, producers).
  - Edited story-based promotional, inspirational, and educational content.
- Generated dozens of social media videos on a weekly basis posted on Facebook and Instagram.
- Lead motion designer for live events averaging 500+ attendees and live streamed to 1K+.
- Budgeted hours, cost, and schedule in pre-production for over 50+ projects
  - Average budget/project of ~\$5K
  - Communicated to Director-level executives production must-haves to achieve desired result in post.
- Optimized and shaped workflow of company's post-production process by managing media storage with CatDV, equipment, and computers, ingested 10+ hours of footage weekly, created proxies daily, and archived and logged footage to LTO tapes.
